

# Is your admirer who they say they are?

## Stop

If you start a relationship online remember that scams are very common.

## Check

Take things slowly when you meet new people online. Ask lots of questions and watch for things that don't add up. Romance scammers can be very convincing so talk your mob and see what they think.

## Protect

Never send money, card or bank details, personal information or identity documents to someone you only know online, no matter how long you've been messaging. Share this info with your mob to keep them safe from romance scams.
