

Don't get job scammed!

Stop

If someone offers you a job through social media, text message or WhatsApp it might be a scam. Scammers pretend to be from job agencies or organisations and offer fake jobs to steal your money.

Check

Make sure you don't share personal information like bank or crypto details and never use your own money in a job even if they say you will get it back.

Protect

Share this info with your mob to keep them safe from job scams.

Help others by reporting scams to Scamwatch.

Use the report form on the Scamwatch website www.scamwatch.gov.au or call the First Nations Infoline on 1300 303 143.
